EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Donald R. Boys on October 15, 2004.

1. The application has been amended as follows:

IN THE CLAIMS:

In claim 8, line 13, after 'for at least...' replaced "out for" with -- one for --.

2. **IN THE DRAWINGS:**

The drawings filed on 06/15/1999 are acceptable subject to correction of the informalities indicated on the "Notice of Draftsperson's Patent Drawing Review," PTO-948. In order to avoid abandonment of this application, the Applicant is requested to submit a new set of formal drawings with correct labels and 'Figure' numbers.

Reasons for Allowance

3. Claims 1-14 are allowed over prior art of record.

The following is an examiner's statement of reasons for allowance:

The present invent relates to reducing the numbers of switch planes required to implement a switch fabric by altering allocation of switch planes and data ports. In the invention, the unique method steps include that "if the number of interface units is less than the number of switching data communication links in a switch plane then the first data communication link in the switch plane is assigned to transfer data switch associated with a first data port of a first interface unit and assign the second data communication link to transfer data associated with second data port of the first interface unit". The closest prior art, Chow et al. (US 5,999,528), disclose a hub slot adapted to receive any one of a plurality of hub cards for receiving and transmitting data, fails to anticipate the underlined method step and render claims 1-14 allowable.

4. The Examiner noted that the provisional rejection of claims 1-5, 8-14 under 35 U.S.C 101, in the Office action mailed on April, 1, 2004, incorrectly cited copending application number as 09/333,218. It should be 09/400,927, as cited in the Terminal Disclaimer received on July 01, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M Qureshi whose telephone number is (571) 272 3178.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Chi Pham can be reached on (571) 272 3179. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
